

App. No. 10/501,791
Reply dated August 29, 2005 to
"Notice of Non-Compliant Amendment"

REMARKS

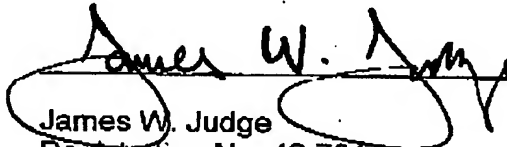

As noted in the Notice of Non-Compliant Amendment regarding Applicants' preliminary amendment received at the PTO on July 2, 2004, only the section being corrected must be resubmitted (in its entirety). Accordingly, only the "Amendments to the Specification" section is hereby resubmitted, because the non-compliant portions of Applicants' preliminary amendment were those amending the title and the abstract.

Thus it is believed that the present resubmission is fully responsive to the Notice of Non-Compliant Amendment, and that the content of Applicants' preliminary amendment should now be entered in full.

Respectfully submitted,

Date:

Aug. 29, '05
